**Fixed and mobile extraction units
in Ready-to-Go Kits**

Extraction units in Ready-to-Go kits

This is the convenient and cost effective way to improve work-places in no time. The Ready-to-Go kits contain everything you need to extract dust, fumes and smoke right at the source. The units are available for fixed installation or mobile use. Whatever your choice you get best of its kind with prime quality.

Nederman is a world leader in dust and smoke extraction products and systems with more than 60 years of experience. The kits contain everything needed for an installation. For more detailed information, see separate product brochures or visit our website www.nederman.com.

Extraction arm Standard

Nederman Standard is an arm for light applications. Extracts fumes, vapours and dust in small workshops, schools, training centres.

- *Standard Extraction arm 2/3m*
- *Fan N16 3 phase 230/400V 50Hz 0.55 kW*
- *Integrated wall bracket*
- *Fan Manual Starter*

Kit Extraction Arm Standard

Arm 2m:	10530331
Arm 3m:	10530431

Extraction arm Original

Nederman Original is an all-round arm for workshops, repair work and metal fabrication shops.

- *Original Extraction arm 2/3/4m*
- *Fan N16 3 phase 230/400V 50Hz 0.55 kW (arm 2 m)*
- *Fan N24 3-phase 230/400 V 50Hz 0.9 kW (arm 3 and 4 m)*
- *Wall bracket*
- *Fan Manual Starter*

Kit Extraction Arm Original

Arm 2m:	10230030
Arm 3m:	10230040
Arm 4m vertical:	10230050

MFS Modular Filter System

The MFS kit solves the need of cleaning the air from particles, smoke and dust at a single workplace. It consists of few parts for simple and quick installation. The filter can easily be changed without the need of any tools. For maintenance and service work.

- *Original Extraction arm 2/4m*
- *MFS filter unit with Particle filter (bracket included)*
- *Fan N24 3-phase 230/400 V 50Hz 0.5 kW*
- *Fan Manual Starter*

Arm 2m:	12610544
Arm 4m horizontal:	12610644

FilterBox

The FilterBox kits are available in three basic versions depending on the filter cleaning process. Each version is available for wall mounting, floor mounting or mobile usage.

FilterBox Basic kit

Manually filter cleaning by hand crank
For welding and dust applications with no need for automatics. For service, maintenance and production.

- FilterBox Standard PW13
 - Original Extraction arm 3m
 - Fan N24, 3-phase 230/400V 50 Hz 0.9 kW
- Note! Silencer not included!

FilterBox Standard kit

Semi-automatic filter cleaning process manually initiated on a control box.
Can be combined with compressed air cleaning. For typical welding and dust applications and temporary use in production.

- FilterBox Standard PW13, 3-phase 400V
- Original Extraction arm 3m (incl light in mobile kit)
- Fan N29, 3-phase 230/400V 50 Hz 2.2 kW
- Silencer

FilterBox Monitor kit

Full automatic mechanical filter cleaning process, handled by a control box at a preset value. Normally combined with compressed air cleaning of the filter cartridge. For heavy welding applications and frequent, uncomplicated use.

- FilterBox Standard PW13 3-phase 400V
- Original arm 3m (includes light in the mobile and the wall mounted kit)
- Fan N29, 3-phase 230/400V 50 Hz 2.2 kW
- Silencer

Wall-mounted

Kit Basic Wall:	12640663
Kit Standard Wall:	12640963
Kit Monitor Wall:	12641263

Floor-mounted

Kit Basic Floor:	12640563
Kit Standard Floor:	12640863
Kit Monitor Floor:	12641163

Mobile unit

Kit Basic Mobile:	12640763
Kit Standard Mobile:	12641063
Kit Monitor Mobile:	12641363

Filter Cart

Filter Cart Standard and Filter Cart Original are suitable for extraction of welding fumes and dust from handling.

FilterCart Standard

Filter Cart Standard, equipped with an Standard arm, is the choice if economy is in focus without compromising on quality. For maintenance and service work.

- Fan N24, 1-phase, 230V EUR
- Particle filter 28 m²

Kit Filter Cart Standard

Standard extraction arm 2m:	12611245
-----------------------------	----------

FilterCart Original

Filter Cart Original with an Original arm, is for more demanding applications like welding. The hood has integrated spotlight. For maintenance and service work.

- Fan N24, 1-phase, 230V EUR
- Particle filter 35 m²
- Spotlight 20W

Kit Filter Cart Original

Original Extraction arm 2m:	12621245
Original Extraction arm 3m:	12621345
